

I would like to add my support to the proposed rule changes AOPA has made to ease restrictions on the DC3. I am a pilot based in Maryland. General aviation aircraft are not a treat to national security. I believe that it is a sad statement when the oldest airport in the nation, College Park, is closed to all but a few pilots. It is a national treasure and should be treated as such. Powered flight embodies the essence of the American spirit. To ignore that in our nation's is to admit defeat.

Thank you.
